Luxembourg is one of the smallest countries in Europe as well as the world. The entire City of Luxembourg is a UNESCO World Heritage Site. All official proceedings and business in Luxembourg take place in French. However, in Luxembourg, the first language taught in schools, as well as that used by the media, is German.

This independent state—bordering Belgium, France, and Germany—is just 998 square miles and has a population of approximately 588,000. But it plays an important role in international politics and banking, and it is a center for modern European institutions. Luxembourg was made a Grand Duchy by the Congress of Vienna in 1815 and was recognized as a neutral independent state in 1867. The last of hundreds of independent duchies which once made up western and central Europe, its motto is “we wish to remain as we are.” The capital, Luxembourg City, which stands high on a promontory with beautiful views of the Petrusse and Alzette valleys, was once one of Europe’s strongest fortresses. Despite its small size, Luxembourg has much regional variety, including the Mullerthal or “Little Switzerland,” an area of outstanding natural beauty, and the wine-producing area in the east, a continuation of Germany’s Moselle Valley.

**ELECTRICITY AND ELECTRICAL OUTLETS**

**Outlets**

Voltage for outlets is 220V. North American voltage is generally 110V. Therefore, you will need a converter for your travels. Adapters will be necessary to adapt your plug into the outlet, but these may not convert the voltage, so both devices are necessary.
